

**English**

1. Mount the two columns to the wheel frame.
2. Loosen the eight knobs on the inside and outside of the stand head and slide the stand head to the preferred height. Tighten the eight knobs again.
3. Mount the back plate of the Universal Screen Mount to the stand.
4. Mount the two Universal flat screen mount profiles to the back of the flat screen.
5. Connect the flat screen to the stand and make sure it is centred.
6. Run the cables (230V Flat Screen, video and network) through the aluminium column. Connect the cables to the flat screen.
